1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, drawn to an image forming apparatus having a belt with a specific position of a seam on a belt relative to an electrode portion, classified in class 399, subclass 162.
- II. Claims 8-9, drawn to an image forming apparatus having a belt with an indicator and a controller for stopping rotation of the belt using the indicator , classified in class 399, subclass 167.
- III. Claims 10-21, drawn to an image forming apparatus having a belt wherein a mechanism brings a cleaning member or intermediate transfer member into contact with the belt at a certain position, classified in class 399, subclass 345 or 308.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II,III are related as subcombinations disclosed as usable together in a single combination. See MPEP § 806.05(d).

Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as not needing a mechanism for bring the cleaning member or transfer member into contact with the belt at a certain position as described in invention III . . See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
